Change in Policy on Substandard Grades

Effective with the Winter 2005 semester, the following grades will be classified as substandard and will count towards a student’s allowed number of repeated courses:

D+ or D for technical courses and their prerequisites  
E  
F  
X  
W if submitted after the 5th week of classes without permission from the Office of Academic Affairs

Please review the College’s Pre-Professional Handbook and your Department Handbook to make certain that you are familiar with the College’s policies on late withdrawals and repeating courses. Graduate students in some departments may also be required to repeat courses in which a C or C+ was earned.

X grades or late withdrawals earned in Fall 2004 or before will NOT be retroactively counted towards the allowed number of repeats. However, this new policy applies to ALL students (graduate and undergraduate) in the College of Engineering and additional grandfathering of students will not be undertaken.

If you have any questions, please consult your academic advisor or the Associate Dean for Academic Affairs.
