Graduate Admissions Policy

All applicants for the MS or PhD program in Electrical and Computer Engineering whose BS degree is not from an ABET accredited university are required to submit scores of the general test of Graduate Record Examination (GRE).

Master Degree (M.S.) Admission Requirements in Electrical and Computer Engineering:

- Admission to this program is contingent upon admission to the Graduate School.
- All applicants to this program must submit an online application available through www.gradadmissions.wayne.edu.
- All students who have BSEE from non-ABET accredited schools (which includes all international students) must pass GRE exam with a score of 1200 (Q+V) or better for admission.
- All students, who have their degrees from a country where English is not the mother tongue, must have a TOEFL score of 550 (213 CBT) or better for admission to be considered.
- The students, who earn a GPA of 3.0 (4 year) or better or B average in their BSEE degree program, may be recommended for regular admission. This is equivalent to 65% for students from India or Pakistan; 80% for students from China.
- The students, who earn a GPA of 2.8 to 3.0 in their BSEE degree program, may be recommended for qualified admission. This is equivalent to 59% to 64% for students from India or Pakistan; 75% to 79% for students from China.

Doctor of Philosophy Degree (Ph.D.) Admission Requirements to Electrical and Computer Engineering:

- Admission to this program is contingent upon admission to the Graduate School.
- All applicants to this program must submit an online application available through www.gradadmissions.wayne.edu.
- All applicants must submit Graduate Record Examination (GRE) scores.
- In addition applicants must have a graduate (MS) grade point average (GPA) of 3.6 or above and must be have completed an undergraduate major or substantial specialized work in his/her proposed doctoral major field.
- Students with an undergraduate GPA of 3.5 or above may apply for direct admission to Ph.D. program.
- Students with less than a 3.5 undergraduate GPA must complete a master's degree program in electrical and computer engineering prior to consideration for admission to a Ph.D. program.
