A PhD Position available in Industrial Engineering

Prof. Kai Yang in the Department of Industrial and Manufacturing Engineering, Wayne State University is seeking a high quality PhD student for his research group, for the fall semester, full financial aid will be provided for the best candidate.

The requirements for this position are the following:

1. The candidate should have a Master degree, or will get a Master degree before May 2010, the candidate’s field and research interests should be related to (one or more of) the following areas:
   - Quality Engineering
   - Engineering Design and Design Methodologies
   - Reliability Engineering
   - Lean Healthcare

   (See the following link about Dr. Yang’s research areas)
   http://www.eng.wayne.edu/page.php?id=5971

   1. The candidate should have good oral/writing English communication skills.
   2. Relevant Research experiences, publications are desirable.

   *Financial Support Details.* The department will provide full-financial support throughout your PhD studies, conditional of course on your satisfactory progress. The financial support will cover all your tuition, benefits such as health-care, and provide you adequate stipend to cover your living expenses. These benefits overall can be estimated to be between $35k to $40k (Stipend + Tuition+Benefit) per year. You will also receive support for professional development (for example, to attend research conferences to present your work).

   Anybody interested can send the cover letter, personal statement and resume with your e-mail to Dr. Yang at: kyang1@wayne.edu. Dr Yang will provide further instructions about application process.
